### Hidden message:

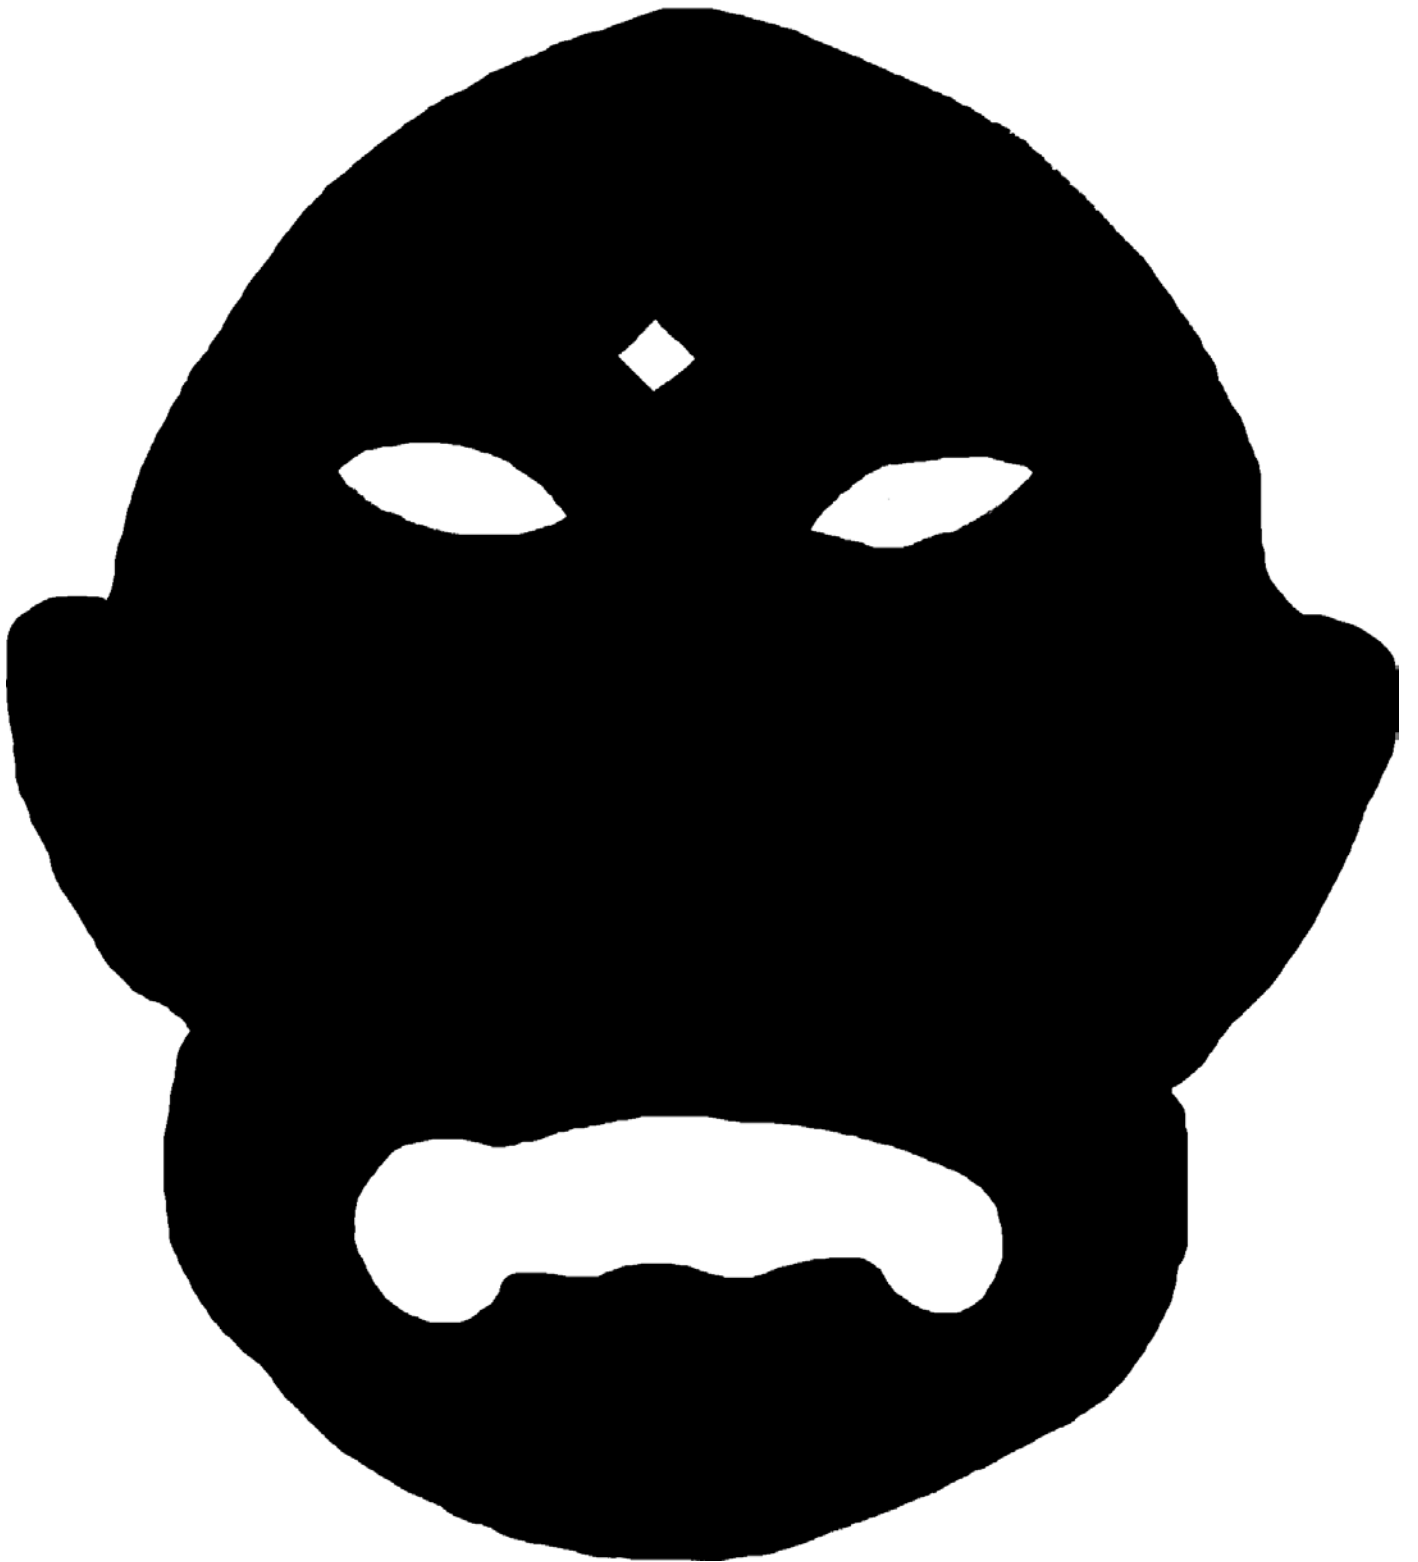

Trace diary fragment closest to guardian's sign on each peril, making jigsaw pieces. Join by matching fragment symbols to make mask. Place upon altar.

Nestor explains: "Once you have made the mask of the monster, you have to put it over the altar picture in the book, lining the red jewel in the hole that the mask has between its eyes, and some flames with the eyes so you can read the name of the monster in the mask's mouth (that is, by the way, the goal of the adventure, to know the name of the monster): YETI."
